

English for Social Sciences 中級 Intermediate

[到達度目標]

- to give students both the ability and the confidence to communicate effectively in English on topics related to their lives and studies
- to develop students' knowledge of language, particularly vocabulary, in contexts relevant to their lives and studies.

[コース概要]

The courses are topic based, integrated skills courses with an emphasis on effective communication. Topics covered will be stimulating and relevant to students' lives and studies to maximise motivation and language development. Students will study using topics related to their department. At intermediate level from lesson 5 students will study through topics related to their studies.

Students will cover the four skills of speaking, listening, reading and writing, though effective and confident oral communication will be highlighted. The course will also include language development and pronunciation. Students will be encouraged to speak English in class at all times.
