

NOTICE

You have been warned!

Marijuana is an illegal drug in Japan!

Please be very clear: Possession, using, and the buying/selling of marijuana as well as other drugs — *all are illegal acts in Japan.*

Offenders can be charged and dealt with as criminals by law enforcement officials. Moreover, students found guilty of any such illegal actions will likely face expulsion from Osaka University.

For international students, this is tantamount to the end of your student visa and career in Japan.

Don't play with your future — don't play with drugs!
