Document of Earnings Form

Employee Name		Relation (to applicant)	
---------------	--	----------------------------	--

◆Instructions for earning calculation

- Using wages for the most recent three consecutive months, compute average monthly wages and expected annual wages. Exclude commuting allowance when calculation.

Average monthly wages (earnings before deduction - commuting allowance) × 15 = Expected annual wages

- If bonuses are not paid, multiply average monthly wages by 12 to calculate annual wages.
- If you cannot calculate using “average monthly wage × 15 (or × 12)” due to a long-term leave or resignation, please have your employer complete and certify Form 6-1. You cannot use this form.
- If wage slips for the most recent three consecutive months cannot be provided, employment duration is less than three months, or you lost wage slips, etc. use Form 6-1 (Expected Payment Certificate).
- Please use Form 6 - 3 for a Part-time employment inside the University of Osaka. Part-time employment inside the University of Osaka includes teaching assistants (TA), research assistants(RA), tutors, teaching fellow (TF), and part-time employees of the University of Osaka.

Fill in the table below. Please tick the applicable box.

In order from oldest to newest ↓	Place of employment (Company name)
